SANJAI S

Aspiring Full Stack Developer

Sanjais2908@gmail.com | 9003084706 | github.com/sanjai2908 | LinkedIn | Portfolio | Puducherry, India

Career Objective

Motivated Computer Science postgraduate seeking an entry-level Full Stack Developer role where I can apply my skills in web development, databases, and programming to build scalable applications and contribute to organizational growth.

Education

- M.Sc. Computer Science – Pondicherry University *(2024–2026, Pursuing)*

Technical Skills

- **Programming Languages:** Java, JavaScript
- **Frontend:** HTML5, CSS3, Bootstrap, React.js
- **Backend:** Node.js, Express.js
- **Database:** MongoDB, SQL (MySQL)
- **Tools & Platforms:** Git, GitHub, VS Code, MS Excel, Word, PowerPoint

PROJECTS

1. Secure File Vault with Two-Factor Authentication (Full Stack)

- Built a secure file management system using JWT authentication and TOTP-based 2FA (Google Authenticator).
- Implemented user registration, login/logout, profile view & edit, and secure file upload/download.
- Added backup recovery codes and role-based access control for enhanced security.
- Deployed frontend on Vercel and backend on Render using MongoDB Atlas.

Tech Stack: React.js, Node.js, Express.js, MongoDB, JWT, TOTP

🔗 **Live Demo:** https://my-vault-2fa.vercel.app

🔗 **GitHub:** https://github.com/sanjai2908/my-vault-2fa

2. Blood Donation Management System (Full Stack)

- Developed a web application to connect blood donors and requesters efficiently.
- Implemented user signup/login, CRUD operations, donor management, and blood group/location-based filtering.
- Built REST APIs for donor and request management with authentication.

Tech Stack: Node.js, Express.js, MongoDB, HTML, CSS, JavaScript

🔗 **Live Demo:** https://sanjai2908.github.io/blood-donation-web-app/

🔗 **GitHub:** https://github.com/sanjai2908/blood-donation-web-app

3. E-Commerce Website (Frontend)

- Built a responsive e-commerce website with product listing, cart, and user authentication UI.
- Implemented add-to-cart and checkout workflow with a clean and user-friendly interface.
- Focused on frontend performance and smooth user experience.

Technologies: React.js, HTML, CSS, JavaScript

🔗 **Live Demo:** https://sanjai2908.github.io/E-commerce/

🔗 **GitHub:** https://github.com/sanjai2908/E-commerce

Internships

Lenovo – In-Plant Training (Manufacturing Operations)

- Gained exposure to manufacturing workflow, quality control, and operational processes.

Financial Capital & Housing Finance Ltd – Sales Trainee

- Assisted in customer interaction, documentation, and basic financial product understanding.

Certifications

1. The Joy of Computing Using Python – NPTEL
2. Practical High-Performance Computing – NPTEL *(IIT Kanpur)*
3. Introduction to Cloud Computing – Simplilearn
4. Train to Transform – Data Scientist Workshop
5. Diploma in Computer Application
