SANJAI S

Aspiring Full Stack Developer

Sanjais2908@gmail.com | 9003084706 | github.com/sanjai2908 |LinkedIn: https://www.linkedin.com/in/sanjai2908/ | Portfolio | Puducherry, India

Career Objective

Motivated MSc Computer Science postgraduate seeking an entry-level MERN Stack Developer role. Skilled in MongoDB, Express.js, React.js, and Node.js with hands-on experience building secure and scalable web applications. Passionate about developing efficient backend systems and user-friendly interfaces.

Education

- M.Sc. Computer Science – Pondicherry University *(2024–2026, Pursuing)*

Technical Skills

- **MERN Stack**: MongoDB, Express.js, React.js, Node.js
- **Programming Languages**: Java, JavaScript
- **Frontend**: HTML, CSS, Bootstrap, React.js
- **Backend**: Node.js, Express.js
- **Database**: MongoDB, SQL (MySQL)
- **Tools**: Git, GitHub, VS Code, Postman

PROJECTS

1. Secure File Vault with Two-Factor Authentication (Full Stack)

• Developed a secure file management system using MERN stack with JWT authentication and TOTP-based 2FA (Google Authenticator).
• Implemented role-based access control and encrypted file storage for enhanced security.
• Optimized file upload/download performance and ensured secure API handling.
• Deployed backend on Render and frontend on Vercel with MongoDB Atlas.

Tech Stack: React.js, Node.js, Express.js, MongoDB, JWT, TOTP

- **Live Demo: https://my-vault-2fa.vercel.app**
- **GitHub: https://github.com/sanjai2908/my-vault-2fa**

2. Blood Donation Management System (Full Stack)

- Developed a web application to connect blood donors and requesters efficiently.
- Built RESTful APIs with authentication and optimized database queries for faster donor search.
- Implemented user signup/login, CRUD operations, donor management, and blood group/location-based filtering.
- Built REST APIs for donor and request management with authentication.

Tech Stack: Node.js, Express.js, MongoDB, HTML, CSS, JavaScript

- **Live Demo: https://sanjai2908.github.io/blood-donation-web-app/**
- **GitHub: https://github.com/sanjai2908/blood-donation-web-app**

3. E-Commerce Website (Frontend)

- Designed responsive UI and improved user experience with efficient cart and checkout workflow.
- Built a responsive e-commerce website with product listing, cart, and user authentication UI.
- Implemented add-to-cart and checkout workflow with a clean and user-friendly interface.
- Focused on frontend performance and smooth user experience.

Technologies: React.js, HTML, CSS, JavaScript

- **Live Demo: https://sanjai2908.github.io/E-commerce/**
- **GitHub: https://github.com/sanjai2908/E-commerce**

Certifications

1. The Joy of Computing Using Python – NPTEL
2. Practical High-Performance Computing – NPTEL
3. Introduction to Cloud Computing – Simplilearn
4. Train to Transform – Data Scientist Workshop
5. Diploma in Computer Application
